

To Whom It May Concern:

How can you possibly restrict vital information from the citizens of this country which can at the minimum keep them informed and at worst prevent a death(s), because a group, NAB (petition 04-160), want control of the air waves... This can and will have far reaching consequences if allowed to stand... The mere fact that one can cross the far expanses of our nation and stay in touch with all the major cities' traffic and weather with one receiver (XM-satellite) is akin to a miracle, and the thought of that being taken away for greed is unconscionable... If you really want to know how I feel about this entire matter contact me at < donald.hopper@att.net >

Thank you...
